### **MEDIA ADVISORY**

#### **Public Service Commission to Give Final Approval Thursday for Georgia Power 2022 Integrated Resource Plan**

July 19, 2022 – (ATLANTA) Per the Procedural and Scheduling Order in Dockets 44160 and 44161, the Georgia Public Service Commission on Thursday will finalize its review and make its final decision on the Georgia Power Company 2022 Integrated Resource Plan (IRP) at its scheduled Administrative Session.

The session will begin at 9:30 a.m. on July 21, in Room 110 at 244 Washington Street, S.W. Atlanta, Georgia. The session also will be live streamed at the following link: <https://www.youtube.com/georgiapublicservicecommission> (also available on the home page of the PSC website).

All documents pertaining to the IRP can be found on the PSC website under the above docket numbers. Additional questions can be referred to Public Information Officer Tom Krause, email: [tkrause@psc.ga.gov](mailto:tkrause@psc.ga.gov); cell number: 404-406-5120.

Every three years, Georgia Power is required to update its IRP, the 20-year plan detailing which energy sources will be used to provide power for its customers. The Public Service Commission has spent countless hours reviewing the plan and has held more than 30 hours of public hearings debating options. A majority vote of the Commissioners is required to approve the IRP.

The Georgia Public Service Commission is a five-member constitutional agency that exercises its authority and influence to ensure that consumers receive safe, reliable, and reasonably-priced telecommunications, electric and natural gas service from financially viable and technically competent companies. For more information on the Commission, see the Commission website at <https://psc.ga.gov>
