

Georgia Public Service Commission is accepting applications for

System Architect

Salary: \$88,000 - \$92,000

Number of Openings: 1

Recruitment Period: Until Filled

Location: Downtown Atlanta

The Georgia Public Service Commission is a five-member constitutional agency that exercises its authority and influence to ensure that consumers receive safe, reliable, and reasonably-priced telecommunications, electric, and natural gas services from financially viable and technically competent companies. For more information on the Commission, see the Commission's website at <https://psc.ga.gov>

Position Summary

The Georgia Public Service Commission (PSC) is seeking a highly skilled and forward-thinking **System Architect** to lead the design, modernization, integration, and implementation of IT systems that support the Commission's regulatory mission. This role is pivotal in ensuring a secure, scalable, and compliant digital infrastructure that promotes transparency, efficiency, and public trust.

Key Responsibilities

- **Enterprise Architecture:** Design and maintain robust system architectures supporting regulatory operations, case management, and public access platforms.
- **Modernization & Cloud Integration:** Lead the transformation of legacy systems and drive cloud adoption in alignment with Georgia Technology Authority (GTA) standards.
- **Collaboration & Stakeholder Engagement:** Partner with internal teams, state agencies, and utility providers to define and implement technical solutions.
- **Cybersecurity Leadership:** Architect secure systems with a focus on identity management, Zero Trust principles, and compliance with state cybersecurity policies.
- **Procurement Support:** Define technical requirements, evaluate vendor solutions, and support procurement processes.
- **Documentation & Governance:** Create and maintain detailed documentation of system workflows, integration points, and architectural decisions.

Minimum Qualifications

- Bachelor's degree in Computer Science, Information Systems, or a related field.
- 7+ years of experience in system architecture, enterprise IT, or system administration roles.
- Strong expertise in:
 - Cloud platforms (especially Microsoft Azure and M365)
 - System integration and interoperability
 - Cybersecurity frameworks and best practices

Preferred Qualifications

- Experience in government, regulatory, or utility environments.
- Familiarity with electronic filing systems and utility data platforms.
- Understanding of:
 - AI governance and data ethics
 - Accessibility standards and inclusive design
- Proficiency in:
 - Programming and scripting languages
 - Relational databases and data modeling
 - SDLC methodologies and DevOps practices
- Experience with audio/video production and broadcasting systems, particularly in support of live public hearings and streaming infrastructure.

Excellent Benefits:

- 401(k) with matching
- Defined Benefit Plan (pension)
- Employer qualified for Student Loan Forgiveness Program
- Health Insurance
- Dental and Vision Insurance
- Employee Discounts
- Health Savings Account
- Life Insurance
- Vacation Leave – three weeks annually that rolls over
- Sick Leave – three weeks annually that rolls over
- 12 Paid Holidays
- Professional development assistance

All candidates must pass a background check.
