The Commission is a quasi-legislative, quasi-judicial agency comprised of five Commissioners elected statewide. The Commission's mission is to exercise its authority and influence to ensure consumers receive safe, reliable and reasonably priced electric, telecommunications, and natural gas service from financially viable and technically competent companies. The Commission's regulatory activities are primarily focused on investor-owned electric power and natural gas utilities. The Commission has the authority to set rates, require long-range energy plans, review the reasonableness and prudence of utility generation and transmission assets and construction management, provide for the safety of natural gas pipelines and protect underground utility systems from damage. For more information on the Commission, see the Commission website at
